PROJECTS & EXPERIENCES

Twitter Clone — Apr 2024 - Jul 2024

Description: Twitter clone built with Next.js and Edgestore for images. Allowing users to create and edit accounts and posts. Like, comment, repost, bookmark and share posts. Users can also search for other users, follow them, and view their profiles.

- Developed user authentication and authorization.
- Implemented functionalities for creating, editing, and deleting posts.
- Integrated features for liking, commenting, reposting, bookmarking, and sharing posts.
- Built search functionality for finding users and viewing their profiles.

`Next JS` `React JS` `Typescript` `MongoDB` `Tailwind` `Edgestore`

E-Tech — May 2024 - Jun 2024

Description: An e-commerce website for tech products, offering a wide range of items from smartphones to laptops. Allowing users to pay using various methods.

- Developed product listing and detail pages.
- Implemented shopping cart and checkout functionalities.
- Integrated MongoDB for storing product and user data.
- Designed responsive user interface using Tailwind CSS.

`Next JS` `React JS` `Typescript` `MongoDB` `Tailwind` `Motion`

Morocco Marvel Travels — Jun 2024 - Jul 2024

Description: A booking website for hotels, houses, and apartments in Morocco. Users can filter options and pay using various methods.

- Developed booking functionalities for hotels, houses, and apartments.
- Implemented filtering options for better user experience.
- Integrated payment methods for seamless transactions.
- Designed user interface with MUI React and Tailwind CSS.

`Next JS` `React JS` `Typescript` `MongoDB` `Tailwind` `MUI React`

SKILLS & LANGUAGES

Programming Languages	C - Python - Javascript - Typescript - PHP
Frameworks	Next JS - React JS - Tailwind CSS - Bootstrap - Sass - jQuery - Jest JS
Databases	MongoDB - mySQL
Tools & Technologies	HTML - CSS - GIT - Docker - Figma
Others	Problem Solving- Data structures and Algorithms - Rest API - UI & UX - Responsive Design
Languages	Arabic (Native) - English (Fluent) - French (Intermediate)

EDUCATION

University degree for studies in mathematics and computer science — 2021 - 2023
Abdelmalek Essaadi University

Baccalaureat en Sciences Physiques — 2018 - 2021
Hassan II High School

CERTIFICATES

CS50x	May 2025	**Javascript Algorithms**	Nov 2023
From Harvard University		From Freecodecamp	
Front End Development Libraries	Dec 2023	**Responsive web design**	Sep 2023
From Freecodecamp		From Freecodecamp
